ENGLISH

This week, we will move into our study of adverbs in English. We keep building on the material previously covered, so it is always a good idea to review past parts of speech. This will help us to stay prepared for class and upcoming tests.

MATH 1

We will begin chapter 9: Number Theory & Fraction Concepts. We will focus on prime and composite numbers as well as prime factorization and greatest common factor.

MATH 2

This week, we will begin chapter 5: Multiplying & Dividing Fractions. Our focus this week will be lessons 1 to 3 as we multiply & divide fractions as well as multiplying & dividing mixed numbers.

Math 3

This week we will begin working with adding, subtracting & multiplying decimals. We will also work with problem

READING

We will begin our novels this week.

The students will be keeping logs. It is best to stay on top of them so as not to fall behind.

RELIGION

We will begin our Archdiocesan Assessment. The majority of the work will be completed in class as required by the Archdiocese. The students should be studying their prayers as prayer recites will begin this week. The students were given a schedule before Christmas break began.

SCIENCE

We will begin our study in Chapter 4, focusing on the food web and energy pyramid. It is important that we start the New Year off strong and continue to use the skills we learned during the first semester.

SOCIAL STUDIES

We will start off the week with the students participating in the classroom geo-bees to see who will represent 5th grade next week in the school wide bee. Then we will start creating our charts of notable explorers to put in our notebook.
