ENGLISH

This week we will continue to work on adverbs and incorporating them to “dress up” our written work. In addition to adverbs, we will work on how to creatively start sentences to provide variety in our writing.

MATH 1

We will continue working with chapter 9 this week. We will be reviewing greatest common factor & introducing least common multiple.

MATH 2

We will review multiplying & dividing fractions and take a quiz. Then we will work on solving fraction equations & solving a simpler problem.

Math 3

We will start the week with a quiz on multiplying decimals & then move onto dividing decimals and reviewing order of operations.

READING

We will be finishing up the novels this week and taking the tests at the end of the week. The novel

project choices will be handed out and due the following week.

RELIGION

The kids will continue working with their teams on the game show projects. All students will be turning in their individual Sacrament questions on Wednesday to be approved. Prayer Recites this Friday will be Glory Be and Hail Mary.

SCIENCE

We will cover the layers of the Earth and continue to work on keyword outlining in class. The outlining is providing a summary of the material read and makes sure that the notes are written in individual words and voices. When finished with our study on the Earth's layers, we will create a layers booklet.

SOCIAL STUDIES

We will continue completing our chart on notable explorers & begin reviewing for a chapter test at the beginning of next week.
