- *Friday:*
- *VISIT OUR WEBSITE:*

ENGLISH

This week we will continue to work on our Young Author's story. It is really important that each student brings their flash drive to class. When our story is finalized, we will begin to work on the original artwork for the story.

MATH 1

This week we will continue to focus on fractions ~ adding/subtracting with unlike denominators. We will have a quiz next week.

MATH 2

We will be wrapping up chapter 6 this week. We will write equations & then begin reviewing for the chapter test on Thursday.

Math 3

We will continue reviewing for the ch. 2 test on Tuesday. Our next chapter will be number theory & fractions. The kiddos will be learning the divisibility rules for the numbers 2, 3, 6, 5, 9, & 10.

READING

This week we will begin our novels. Each night the kids will be required to read and log a summary of what was read. Make sure to study 5-10 each night for the set 17 vocab quiz on Friday

RELIGION

We will begin our Lenten Journals this week with daily reflections of scripture and thoughts for the day. We will also

be back in the textbook this week after discussing the Archdiocese Assessments we completed last week. The prayer recite this week is the Act of Love.

SCIENCE

4H will make an appearance this week in Science. This is the last activity they will present this year for the 5th graders. 4H Bridges is an exciting project for the kiddos! The final project will be due BOC on March 3. It is important that the project is started right away, as the glue needs time to dry before the due date. In addition to Bridges, we will wrap up our study on resources in our textbook.

SOCIAL STUDIES

We will be looking at the Jamestown Colony this week & then begin building Jamestown on Wednesday. As part of their learning experience, they will be writing letters about each season's building experience. The kiddos have 15 vocabulary words to study. We will take a quiz Friday on these.
